3. Design Rationale Document

Project Overview

Maru Bake House is a website designed to offer customers an easier way to make a reservation, which also provides information regarding the café from the concept to the menu. The website aims to create a simple, responsive, and user-friendly experience.

Design Objectives

- Introduce Maru as a café with a unique concept
- Ensure all menu items are displayed clearly and attractively to enhance user engagement.
- Provide easy navigation for users

- Support responsive access on desktop

Target Audience

- Café enjoyer
- Dessert enthusiasts
- Customers searching for an easier way to make a reservation
- Customers looking for a list of the menu and prices

Color Selection

- Red (#7f1e17) is the primary color to represent the color from the Maru Bake House logo
- Cream (#f5edd1), which is also a color from the Maru Bake House Logo
- White for neutral background elements or form page.
- Black for neutral text elements.

Typography

- Monsterrat

Layout Design

- Navigation bar placed on the top
- Popular menu displayed on the homepage
- Consistent spacing and alignment
- Balanced design and features for each different page
- Footer placed at the bottom

User Experience (UX)

- Easy navigation
- List of Menu and Price
- Simple reservation system
- Changing Reservation
- Cancelling Reservation
- Simple admin management system

Features

Main Features:

- Homepage
- Café Information
- Menu Catalog
- Reservation Page
- History Page

Responsive Design

The website is not fully responsive

Technology Stack

Frontend:

- HTML
- CSS
- JavaScript

Backend:

- PHP

Database:

- MySQL

Version Control:

- GitHub Public Repository

Conclusion

The Maru Café Website is designed to provide a professional company profile, menu showcase, and a reservation system with a focus on simplicity, usability, and responsiveness.
